WRITING (GENERAL NOTES)
• *The **wording of the descriptors** in the relevant Rating Scale should form the basis of all decisions (and discussions) on the marks to be awarded.* • *There may be different individual ways of approaching a task or interpreting a picture (or set of pictures), but a basic requirement for all answers is that they are **relevant**.* • *If answers are **clearly not relevant** and the student has clearly not attempted the task that was set, **no marks** should be awarded.* • *However, if a student has **genuinely attempted the task**, but their answer is only **partly** relevant, then a **reduced** mark (not zero) should be awarded.* • *If markers are in any doubt, they should consult with other markers and with the Table Head.*
